All Item must be covered prior to being lit certain policies require 3 days prior while others can take 7 to 30 days to take effect and can result in a 72-hour wait before we turn them on for your protection. With the exception of bulk orders. These installations take longer as they are far more comprehensive. Some units will also take shipping time due to Bitmain delays for the z11, z17s, S17 pros.

All Item prices are secured for 48 hours upon invoicing or quote date.

Supplies are dwindling Fast if you want to make an order for S9 or L3s Its best to do them in bulk now and work out a payment arrangement so we can bring down the costs. Nothing is available for the S17 series till June but for a few leftover units that are in stock as we have purchased everything in SZ and from Bitmain direct.

As is with many manufacturers we are sometimes delayed due to their delivery times.

If you have any questions please reach out to your representative and we will be able to give you a detailed ETA and time to deployment. expect that the install will minimally take 10 days on bulk orders.

Note we will provide sample testing on pools to confirm your results in order to set reasonable expectations of equipment performance beyond what you see in Bitmain's advertised performance specs and/or you can see them listed on our website. Any Criminal activity stated intended, failure to pass KYC by Coinbase and/or affiliates or prior record not disclosed will result in a full forfeit of all goods and services, please be upfront and we hope to do great by you.
